

Launching at UT Austin
June 1-4, 2020

**TRANSFORMING HEALTH
CARE CULTURE BY TRAINING
COLLABORATIVE,
INTERPROFESSIONAL TEAMS**

**LED BY EXPERIENCED IP
FACULTY AND
PRACTITIONERS**

**EMPHASIS ON
COLLABORATIVE PRACTICE**

Relate projects to end-users and
the quadruple aim

**TEAM AND PROJECT
FOCUSED**

Receive consultation from T3
faculty during project
development time

INTERACTIVE

Learn by doing; participate in
experiential learning modules

**NETWORK WITH OTHER IPE
LEADERS**

Connect with and learn from
other participating T3 teams to
share ideas

TRAIN-THE-TRAINER

Leave ready to train others
and implement your project

T3 TRAIN *the* TRAINER

Interprofessional Team Development Program

3.5 DAY IN-PERSON PROGRAM

Guides participants through the development, implementation, and assessment of interprofessional projects and programs, and strengthens skills that advance team-based care; **CME/CE credits**

TARGET AUDIENCE

Practitioners, educators, administrators, and other professionals involved in health care delivery or improving health

PRE-WORK

- Assemble an interprofessional T3 training team (3+ people; 2+ professions) and begin project planning
- Complete online pre-work readings and team activities to maximize project development time

KEY PROGRAM ELEMENTS

- **Team Dynamics:** Explore topics relevant to improving team dynamics
- **Science of Teamwork:** Apply principles of high-performing teams in developing your team's project
- **Curricular Design:** Review IP theoretical frameworks, apply curricular planning tools to your project, and learn new interactive teaching strategies
- **Assessment & Evaluation:** Ground your project in IP theories and research frameworks, and make plans to collect data for publication and for iterative improvements
- **Project Management:** Get your project off to the right start with essential project planning documents
- **Leading Change:** Prepare to implement projects at home institutions and take key steps to ensure project success
