T3 TRAIN the TRAINER
Interprofessional Team Development Program

3.5-DAY SYNCHRONOUS PROGRAM

Innovative virtual training that guides participants through the development, implementation, and assessment of interprofessional projects and programs, and strengthens skills that advance team-based care; **Earn CEUs and a microcredential.**

TARGET AUDIENCE

Practitioners, educators, administrators, and other professionals involved in health, health care delivery, and/or health care education

PRE-WORK

- Assemble an interprofessional T3 training team (3+ people; 2+ professions) and begin project planning
- Complete pre-readings and team tasks

KEY PROGRAM ELEMENTS

- **Team Dynamics:** Explore topics relevant to personal & professional development and improving teams & teamwork
- **Science of Teamwork:** Apply principles of high-performing teams in developing your team's project
- **Curricular Design:** Review IP theoretical frameworks, apply curricular planning tools to your project, and learn new interactive teaching strategies
- **Assessment & Evaluation:** Ground your project in IP theories and research frameworks, and make plans to collect data for publication and for iterative improvements
- **Project Management:** Get your project off to the right start with essential project planning documents
- **Leading Change:** Prepare to lead & implement projects at home institutions and take key steps to ensure project success

ACCELERATE YOUR TEAM'S PROJECT

"Our project is a more sophisticated product as a result of the conference sessions which sequentially gave us tools and insights to advance our project one component at a time. We left the conference with a momentum that allowed us to continue working effectively toward project completion." - T3 alumnus
