

5th Annual Interprofessional Health Showcase April 14, 2023

Poster Requirements

You will present your poster in-person at the Texas Union Ballroom on 4/14. Your poster will also be uploaded to a virtual poster gallery. Design your poster using the required dimensions as listed below.

- Due date for the digital poster (in PDF) to the organizer: 4/8/2023, 11:59 PM
- Bring your printed poster to the Showcase the morning of 4/14. More details to come.
- Note: You may need to send your poster for printing before 4/8 to get it back in time for the Showcase on 4/14.

Required poster dimensions

- **Vertical (height): must be 42"** (see section on "poster frame" below)
- **Horizontal (width): must not exceed 72"**, which means it can be shorter (e.g., 48", 60")
- **Recommendations**
 - Check with your supervising faculty to determine how best to decide on the width of your poster and where to get your poster printed.
 - The poster dimension is impacted by the printer's capability and the cost to print.
 - Poster turnaround time varies by print shop and the volume of jobs they receive. You may need to submit your poster for printing earlier than anticipated.
 - Identify ahead of time where you plan to have your poster printed.

Poster Frame

- Poster frames at UT are metal bars with no backing.
- Posters will be binder clipped to the frame; therefore, having the correct height ensures your poster can be clipped to the bars at the top and bottom (see images).
- Most posters will be hung back-to-back in the frames meaning your poster will be clipped with another poster on the other side. Following poster dimension guidelines is essential.
